## Keio Plaza Hotel News Release

### 84 Rooms on Upper Floors Undergo Comprehensive Renovations Introducing Enhanced Connecting Rooms for Families and Leisure-Travel Groups Grand Unveiling on February 1, 2024

TOKYO - Keio Plaza Hotel Tokyo (KPH), one of Japan's most prestigious international hotels, located in Shinjuku, Tokyo, embarked on a renovation project for 84 rooms spanning the 32nd to 34th floors of our Main Tower in August 2023. In light of the increasing demand from leisure travelers and families, we are adding 40 new connecting rooms, with a strong emphasis on enhancing convenience to better cater to our guests' needs.

※ Photograph is for illustrative purposes only.

These rooms are being redesigned to create a bright and open atmosphere, appreciated by guests from both Japan and overseas; and to cater to various guest preferences, including families and groups seeking quality time together, couples desiring a relaxed evening with a scenic night view, and individuals in need of a tranquil escape from the pressures of work.

The renovated rooms take full advantage of the high-rise views and expansive windows, offering a sense of spaciousness and luxury. We are introducing newly designed connecting rooms and flexible arrangements of twin rooms (with two beds) or double rooms (with one larger bed) to accommodate the diverse needs of our guests. These connecting rooms can be used individually and come equipped with functional features, including separate bathrooms and toilets, which are preferred by domestic visitors.

At Keio Plaza Hotel, we approach renovations from a long-term perspective. In March 2024, we'll unveil 'SKY PLAZA IBASHO' on the 47th floor, providing a space for guests to relax during their stay. We are committed to continuing to meet the diverse needs of our guests in the future.
