TOKYO - Keio Plaza Hotel Tokyo (KPH), one of Japan's most prestigious international hotels, located in Shinjuku, Tokyo, initiated a comprehensive renovation of the 47th floor in the Main Tower in July 2023. Crowning the Main Tower at an elevation of 170 meters above ground, the 47th floor presents a sweeping vista of the entire Shinjuku area. Back in 1971, when Keio Plaza Hotel debuted as Japan's inaugural high-rise hotel, it quickly endeared itself to guests for its observation deck, drawing in visitors with its awe-inspiring panoramas. In just six months post-launch, it welcomed over one million enthusiasts. With this renovation, you'll have the chance to rediscover the evolving allure of Shinjuku's cityscape, transformed over the span of more than five decades.

The concept behind "SKY PLAZA IBASHO" is to create a welcoming and comforting atmosphere where guests can find their own personal space and enjoy their time at their own pace. This concept is realized through meticulous design, including abundant greenery and a calming earthy color scheme. The space is thoughtfully divided into six unique zones, providing guests with the flexibility to relax and unwind according to their individual preferences, whether they are alone or in a group.

Lounge Zone: Bright and open, featuring cozy sofa seating.

Garden Zone: A place for relaxed conversations, with greenery creating a natural garden atmosphere.

Park Zone: Relax with hammocks and an electric fireplace, offering an outdoor-inspired setting.

Multipurpose Zone: A versatile space for various uses (subject to fees), including business and private bookings.

Hall Zone: A flexible area for events and gatherings, providing a space for various occasions.

Keio Plaza Hotel is dedicated to a long-term vision of improving its facilities.
